

Due to the continued expansion of our business in the Shrewsbury area, we are looking for a General Farm Worker to join our existing team.

The farm comprises of 450 Autumn calving cows, plus youngstock, grazed as much as possible in the Summer using the paddock system and housed in the Winter.

We remain a family run business which started in the 1940's on a smallholding in Cheshire. Working with a thriving team, we are now involved in the management of nine herds from Shropshire to South West Scotland. Despite our growth, our principles remain the same – the welfare of our people, livestock and land, is our priority.

The role requires the successful candidate to assist with the day-to-day running of the farm and the herd. Daily duties will include but not limited to, milking, foot trimming and animal welfare, fencing, record keeping and grass management, breeding, alongside basic tractor driving and farm maintenance.

We're looking for someone with a can-do, positive attitude and a passion for dairy farming, who is willing to work as part of a team to deliver high-quality results. Previous experience in dairy farming is preferred, but an eagerness to learn and develop within a forward thinking and progressive business is just as equally important.

We'll provide a highly competitive salary based on your experience, on farm accommodation should you require it, a flexible working rota, plus a genuine commitment to your future development. For those looking to build a career, the scale of our business offers the opportunity for you to grow as we continue to grow.

If you think this is the position for you, we would like to hear from you. Please drop us an email: [office@dalefarming.co.uk](mailto:office@dalefarming.co.uk) with a Covering Letter & your CV.
